

Installation Instructions

Mounting Bracket Kit

Kit Numbers

297395–001

297395–002

I&M No.V9579

DESCRIPTION

Mounting bracket may be used with all valves in sizes 1/8, 1/4 & 3/8 pipe ports for Bulletins 8262 & 8263. The kit consists of a single bracket, two lockwashers and two screws. The bracket has been designed to support the valve. Install adjacent support as required for piping and insure mounting is suitable for specific applications.

INSTALLATION

1. Place the mounting bracket against the bosses on the valve body as shown based on vertical or horizontal mounting surface.
2. Insert screws with lockwashers into threaded holes in body. Torque screws to 2,8 Newton Meters [25 in–lbs].
