

Simple to Use, Ideally Suited for Basic Applications or Usage Levels

The Watlow® EZ-ZONE® PM Express panel mount controller is an industry leading PID controller that allows for optimal performance utilizing simple control and menu functionality without complex features. The EZ-ZONE PM Express is ideally suited for basic applications and usage levels.

The EZ-ZONE PM Express is the next generation of controllers leveraging the strong legacy of Watlow's SERIES 93, SERIES 935 and SERIES SD controllers where easy-to-use features are needed for basic applications. It includes one universal input and the option for up to two outputs and is available in 1/32 or 1/16 DIN panel mount packages. The EZ-ZONE PM Express can be ordered as a PID process controller or a dedicated over and under-temperature limit controller.

The EZ-ZONE PM Express is a great addition to the EZ-ZONE PM family of controllers which include two other controller versions, the EZ-ZONE PM integrated controller and the EZ-ZONE PM standard version. This family provides an ideal platform to perform many applications.

If you are looking for a simple and easy-to-use basic PID controller or an over and under-limit controller, the EZ-ZONE PM Express controller will be the ideal controller to use.
